Profile

Proactive and Disciplined Software Engineer with expertise in Java programming and related frameworks. Committed to delivering superior services and driving organizational growth. Excels in both independent and collaborative environments, demonstrating exceptional problem-solving abilities and dedication to customer satisfaction.

Professional Experience

2025/01 – present
Abuja, Nigeria

Backend Engineer

Simplify Synergy

- Optimized database queries and schema designs (PostgreSQL, MongoDB), reducing response time by up to 40%, improving app performance and data integrity..
- Designed, developed, and maintained scalable RESTful APIs and microservices using Java (Spring Boot).
- Implemented secure authentication and authorization systems (JWT, OAuth2).
- Integrated third-party services (e.g., payment gateways, messaging APIs) and internal systems to streamline business workflows.
- Contributed to code reviews and Agile sprint planning, actively improving code quality and delivery timelines.
- Proactively identified and resolved bugs, improving application stability and reducing error rates in production.

2023 – present
Lagos, Nigeria

Software Engineer

Decagon

- Spearheaded the development of Smart Quiz and Airway projects using Java, Servlet, and Spring Boot.
- Enhanced data retrieval efficiency by 30% by optimizing MySQL and Postgres databases.
- Achieved 95% code coverage through rigorous unit and integration testing, significantly reducing defects.
- Assisted peers in learning Java, providing mentorship in object-oriented programming, debugging, and project implementation.
- Accelerated project delivery speed by 20% and improved team alignment through cross-functional collaboration, software design drafting, and Agile/Scrum methodologies.
- Boosted stakeholder satisfaction by regular update and quick learning of emerging technology.
- Optimized user satisfaction implementing customer feedback systems.

2022 – 2023
Ondo, Nigeria

Web Developer

Wetin dey inc

- Elevated user satisfaction by 30% by developing responsive web applications using Java, PHP, HTML, CSS, and Bootstrap.
- Reduced development setup time by 20% through efficient configuration of WAMP server and phpMyAdmin for PHP, and Apache Tomcat and MySQL for Java.
- Amplified user engagement by 25% by leading the development of registration portals and library management systems.

- Minimized bugs by 15% and refined coding practices through collaborative code reviews and feedback.
- Streamlined project efficiency by 20% and reduced development time by 15% by integrating new web development technologies.

2021 – 2022
Ondo, Nigeria

Computer Operator/Cafe Manager

AbGraphics + Print,

- Decreased downtime by 25% and improved network reliability by 30% by managing software and hardware operations.
- Resolved customer issues 20% faster through effective support.
- Lessened printer and copier malfunctions by 15% through efficient device management.
- Advanced operational efficiency by 10% by delving into Python programming basics.

Skills

Technical Skills

Java Programming Language, Spring Framework, Spring Boot, Spring Security, Spring MVC, RestAPI, Hibernate, Servlet, Agile Methodologies, PostgreSQL, MySQL, MongoDB, H2 Database, PHP, HTML, CSS, Bootstrap, ReactJs, Thymeleaf, Postman, Troubleshooting, Swagger, Mockito, Junit, Jmeter, Microservices, Microsoft Office, Git, Docker, CI/CD, JWT, WebSocket, Jenkins, Computer Networking, Hardware maintenance, Jira, Kubernetes, Kafka, Rabbit MQ, AWS, Azure, Dynatrace.

Soft Skills

Leadership skills, Team collaboration, problem solving skill, Effective Communication, Patience and consistency .

Projects

Airway

Full-stack web application for flight booking.
Backend developed using Java Spring Boot.
Frontend developed with ReactJS.

Technologies: Java Spring Boot, ReactJS, MySQL, Postman, Paystack Payment Integration, JWT, Spring Security, Mockito, JUnit.

Smart Quiz App

Smart quiz app is a full stack software that allows examiners to set and manage quiz and invite students to take them.

Backend developed using Java Spring Boot.
Frontend developed with ReactJS.

Technology: Java Springboot, Spring security, JWT, MySQL, ReactJs, Google OAuth

Fashion Blog

A blog post API (REST API), where the owner could post different designs of his project and other users can comment and like.

Technology - H2 Database, Spring Boot, JWT, Spring Security, Google OAuth2, PostgreSQL

Ecommerce App

A trade store application for fashion where users can browse through different products, add to cart, checkout, and make purchases.

Technologies Used: Java, Servlet, Mysql.

2020 – 2021

Research on Effects of Cybercrime in the Banking sector

- **Effects of Cybercrime in the Banking Sector** Authored research paper addressing the impact of cybercrime on the banking industry, analyzing its consequences and proposing solutions to mitigate risks.

Education

2016/07 – 2022/02
Nigeria

BSc Computer Science

National Open University of Nigeria

Research Paper: "Effects of Cybercrime in the Banking Sector"

Certificates

CompTIA A+ Training

Complete Computers Technology

SCRUM Fundamentals

ScrumStudy
